Gene Synthesis Details			
1. Sequence Information			
Gene Name		Origin of Gene	
Sequence Type		ORF	
DNA Sequence			
Amino Acid Sequence			
Sequence Length (bp)	0		
2. Codon Optimization			
Codon Optimization		Expression Host	
Optimization start position	bp	Optimization end position	bp
Restriction sites to avoid		Restriction sites to keep	
Restriction sites to include	5' region (Enter the restriction site for 5')		
	3' region (Enter the restriction site for 3')		
Stop Codon		Stop Codon Sequence	
3. Cloning Details			
Vector		Cloning site	
Mention plasmid you would like to clone the gene		Edit your site like this - 5'-EcoRI ----NNNN----BamHI-3' (N indicate gene)	
4. Other Details			

Note: Please check your gene of interest for ORF, Restriction sites, cloning sites etc before ordering.
